

# Globe LED Lighting: Tube Lights

Globe LED Lighting's high efficiency T8 style tube lights are ideal for office buildings, educational facilities, institutional buildings and industrial facilities

## PRODUCT FEATURES

- Designed to replace standard T8 or T12 fluorescent light tubes
- High efficiency lights produce 123 lumens per watt
- Built in driver AC90-277V input, DC24V output, high power factor
- Robust, damage resistant, vapour resistant construction; Wide temperature operating range
- UL and cUL registered; DCL (DesignLights Consortium) QPL registered
- Projected product life and product warranty of 5 years
- Colour: 3000, 4000 or 5000 Kelvin

## PRODUCT BENEFITS

- Far more energy efficient than standard T8 or T12 tubes
- Qualifies for IESO saveONenergy and other utility conservation incentive programs

## TWO FOOT T8 LED TUBE LIGHTS
